

"It's really your fault... you should never show fear in front of an animal!"

School to Enforce Immunization Law

Torrance school officials said yesterday parents may face legal action if they fail to comply with a law requiring polio shots of students.

Laws with respect to compulsory polio immunization of public school students passed by the last session of the State Legislature provide that parents give proof to local school districts of having complied with the law by either having their children immunized or by completing a form which declares that such shots are contrary to their belief (forms

are available at each elementary and high school building) prior to enrolling them in school.

PRINCIPALS OF the Torrance Unified School District report that there are hundreds of students whose parents have not complied with the law, and since the District is not allowed to enroll these students many of them are in danger of being excluded from attendance at summer school and regular school in September.

The Education Code requires attendance of children between 8 and 16 years of age in schools, therefore, the parents who fail to comply with the immunization law, whose children are excluded may be held liable for action in accordance with the provisions of the Compulsory Education Law also.

FOR EXAMPLE, if the parents fail to have their child immunized or fail to complete the required form objecting to immunization the child may not be admitted to summer school and two weeks after attendance to school in September, the principal, must by law, send the student home. The school district must then report a violation of the compulsory attendance law whereupon legal action against the parents may be filed.

Dr. Boyce To Speak

Dr. Merle Boyce, Republican candidate for congress, 17th District, will be one of the principal speakers at the Republican Candidates Picnic and Rally on Sunday at Holly-Glen Park, Hawthorne.

Dr. Boyce has spoken to more than 70 political and service groups throughout the district. Leon Tipton, chairman of the Boyce Campaign Steering Committee, said yesterday, Dr. Boyce will intensify his door-to-door campaign to meet, personally, as many voters as possible the last three weeks before the June 5 primary election, Tipton further stated.

Joe Shell, candidate for governor, will be the first speaker at noon, followed by senatorial, congressional and assembly candidates.

Ed Nettleton, chairman of the event sponsored by the Hawthorne-Lawndale Young Republican Club, said there will be an elephant for the children to ride, as well as musical entertainment.

KICK-OFF... Mrs. William A. Huber, community chairman for the United Cerebral Palsy Assn. in Torrance, is leading door-to-door march this week for funds. She is shown here with Donnie Spray, 1961 UCP national poster boy, and Tina Louise, movie and stage star, who attended a kick-off luncheon.

Commission Recommends LA Strip Zone Change

Commercial-Manufacturing zoning for the north side of 228th Street between Western Avenue and Normandie Avenue has been recommended to the Los Angeles City Planning Commission.

A change from the present M1 limited manufacturing zone to the CM commercial manufacturing zone was the subject of a public hearing held in Wilmington on April 30. At that time various property owners presented arguments both for and against the change.

Consideration of this change was initiated by the Planning Commission following a recent amendment to the city's zoning regulations which prohibits further residential development in the M1 zone. CM zoning would further restrict the manufacturing uses but would permit residential and commercial use as well as a number of very limited manufacturing activities.

CITY PLANNER Lewis P. Kipke who conducted the public hearing concluded that the change was justified since over 90 per cent of the property is already developed with dwellings and a majority of the residents appeared to be in favor of the change. This recommendation has been approved by Planning Director John E. Roberts.

The proposed change would not affect the frontage on Western Avenue to a depth of

90 feet which remains M2 zone, or the property from the Pacific Electric Railway to Normandie Avenue.

The Planning Commission will consider the matter on May 17. Final action will be up to the City Council.

Dairy Joins Association

Inglewood Farms of Torrance has been elected to membership in Associated Independent Dairies of America. The association, which now has 22 members in California and two in Nevada, was organized primarily to offer independently owned processor-distributors of dairy products an opportunity to exchange information, ideas and experience in all phases of dairy operation.

It also serves as a central buying agency for the procurement of supplies and equipment for its members. The organization's headquarters are in San Francisco.
